

Local Resource for Diabetes Services

Buloke

Local Government Area

The Southern Mallee Primary Care Partnership is a partnership of organisations (health, welfare, disability, local government, community based), across the areas of Buloke, Gannawarra & Swan Hill, who are working together to improve the health and wellbeing of our communities.

Background

The Southern Mallee Primary Care Partnership Chronic Disease Management Committee agreed to support the implementation of the Loddon Mallee Region Diabetes Pathway.

The **Local Resource for Diabetes Services** has been developed to compliment the Loddon Mallee Region Diabetes Pathway with identification of local services and referral options.

Aim of Local Resource for Diabetes Services:

- Increase in awareness of, and referral to services required in the management of diabetes
- Increase and improve communication between service providers for the benefit of the consumer
- Provide services with information that will support the use of the Loddon Mallee Region Diabetes Pathway

Local Resource for Diabetes Services available on Southern Mallee Primary Care Partnership website: www.smpcp.com.au

HACC	Home and Community Care		

Connectingcare for further information relating to services listed on the resource go to <http://www.connectingcare.com/>
Connectingcare is an online regional service directory with electronic messaging capacity – the website is a portal for local health and community service information.

Loddon Mallee Region Diabetes Pathways

The Loddon Mallee Region Diabetes Pathways provide guidelines for the identification and management of Prediabetes, Type 1, Type 2 and Gestational Diabetes. They are evidence based pathways which have been developed to help guide clinicians but are not intended to replace professional judgement or clinical expertise.

National and international guidelines have informed the development of these pathways and it is anticipated that they will be revised and updated as changes to national guidelines arise.

These pathways are endorsed by Diabetes Australia – Victoria
